

LETTER OF RECOMMENDATION

FOR KYRIACOS ANTONIADES

06/06/2012

To whom it may concern,

I am writing this letter to give my highest recommendations for Kyriacos. He has been an active member (Lab. Associate) of our faculty staff for the last ten years and distinguished himself in both his duties and volunteer work.

In his duties my colleagues and I, consider Kyriacos as an outstanding lecturer, with deep understanding and insights of students needs. A precocious, confident and intelligent communicator, he enjoys his popularity amongst staff members as well as his students. It has become apparent that he is enthusiastic, honest and approachable individual, willing to take responsibility and always available to offer his help.

Yet what is most impressive is his energy and time he put in volunteer work. In 2001 he was elected Vice Chairman of the Lab. Associates, taking the initiative and leading roles for legal and economic matters of the institution. In the next two years he was already a chairman and remained so for the next four years. In that time, his participation set milestones in improving work and quality conditions for the members of the association he was a member.

Needless to say, in our regular meetings Kyriacos exhibited all the fine professional and interpersonal skills required for our institution. Self knowledgeable with leadership traits, he balanced efficiently between being firm and assertive and between being flexible and defending which merits a high ability to handle conflict – as he is expressive and keen in social activities.

I have witnessed Kyriacos's interdisciplinary cooperation with most of our faculty departments, participating in conferences, collaborating effectively on various software development projects and publishing a number of books and papers.

Imaginative with an everlasting drive for innovation, Kyriacos definitely possesses the quality and appropriate research skills and methods at an international level.

In summary, Kyriacos is definitely one of the best colleagues I had the pleasure to make acquaintance with and I am sure he would be an invaluable asset for your University. I give him my highest recommendation. For any further information please do not hesitate to contact me.

Yours sincerely,

Lazarus Vryzidis
